

Media Advisory

Bonsai Robotics to Unveil New Amiga Lineup at FIRA USA 2025

Be among the first to report on Bonsai's new Amiga lineup after the acquisition of farm-ng in July 2025.

What you'll see on the ground:

- **Amiga** robots running automated tasks in the vineyard and vegetable zones.
- **An autonomous OMC AR-500** performing precision spraying demos in the orchard zone.
- **Bonsai Intelligence**, the company's vision-based autonomy platform. Learn how it works across Bonsai-enabled machines and why it's different.

Executives will be available for interviews and demos. Learn more about Bonsai at FIRA and request an interview [here](#) or send me an email at Erika@SoldierCreekCommunications.com.
